THE FUTURE

Growth

The hope is that we continue to grow and add players, especially on the girls side. This will be done through advertising, coach recruitment, and community events in the Spring

Coach Resources

We want to provide as much support for coaches as possible. This includes equipment, practice plans, and ways to get parents involved to help

Equipment and Fields

With growth in numbers, there will be a need for more equipment and space. We have space to add fields at Robert Livermore but may need to explore other options as the league grows.

Community Involvement

We want to provide clear outlines for how parents can be involved with the teams. Coaching can be a lot and the more parents we get involved, the better chance we have of retaining the coaches.
