Hi there!

I'm a local parent and LARPD user, and I was wondering if LARPD has considered adding a playground to Robert Livermore Park, adjacent to the Community Center.

With so many families already coming to the area for swim lessons, classes, sports, and events, it seems like it would be such a well-used addition—especially for toddlers and younger children.

I also saw that an older LARPD master plan referenced a tot lot at Robert Livermore Park. I'd love to know what happened to it, whether a new playground has been considered, and if there's a way for local families to show support for one in future planning.

Thank you so much!
