**Subject:** Head on collisions at new Sunken Gardens Pump Track  
**Date:** Saturday, June 20, 2026 11:28:23 AM

---

Hello,

My child had a head on collision with another child on the new pump track. Many of the kids, and adults, are cutting around through the pump track and going at dangerous speeds and in all directions. To avoid a serious injury, it is pertinent that directionality be established, clearly marked, and enforced. This will bring the new pump track in line with thousands of others across the U.S.

Thanks,  
Kasimir Gabert
