**Subject:** Public Meeting in the Park - late suggestion

Hi! I am a few weeks late but saw online there was a meeting for suggestions for Livermore Parks and I saw the grand opening is coming up for one of the new parks. I was wondering if there was plans for a future park remodel to have a water element? I know Emerald Glen has a rather large one but am hoping a small water feature for Livermore (example- George Park in Elk Grove has a regular park and one small run through water feature you press a button to have water sprayed as part of the park and the city controls when the water is on and off.)

Appreciate the consideration!

Jen
